LPH/009 MULTIFUNCTIONAL AND MODULAR TABLE TOP STAND

- Thanks to its minimal design, the LPH/009 stand adapts perfectly to all needs of modern musicians, DJ's and producers, making their home recording studio tidier, cleaner and more functional, as well as allowing for the ideal and most effective setup on stage.

- The LPH/009 developed by Quik Lok from heavy-duty steel material is compatible with virtually any size laptop, but will also accommodate a multitude of other devices such as mixers, midi controllers, tablets and small studio monitors.

- Extremely versatile, the LPH/009 can be used in two different configurations:-

   a) As a free-standing table top support: two solid base plates, 30.5 cm (12") long and 3 cm wide (1.2") ensure excellent sturdiness on any table surface, and non-slip adhesive rubber strips are included to enhance stability and protect the desktop from scratches.

   b) As a desk-mount stand: two robust mounting brackets, with a maximum clamp opening of 4.5 cm (1.77"), are supplied to anchor the LPH/009 to the side of any desk or stand, allowing to free up precious space on the workstation and to use it for other purposes.

- Overlapping vertical side plates can be coupled in various positions, allowing to set the stand at 4 different height positions: 24, 28, 32 and 37 cm (9.4" – 11" – 12.6" – 14.5"), measured from the bottom of the stand to the back end of the top support platform.

- The fixed tilt angle design of the top support platform will consequentially result in 4 different height positions of the top tiers' front lip: 17 - 21.7 - 26.4 - 31 cm (6.7" - 8.5" – 10.4" - 12.2").

- The top support platform consists of two tiers, 27 cm (10.6") long and 3 cm (1.2") wide. Nonslip rubber foam adhesive strips and raised front lip on the top support tiers will hold equipment firmly in place and prevent it from accidentally falling off the stand.

- Modular design of the two back horizontal crossbars, consisting of one central section and two threaded extensions, allows to set the stand at different width positions, depending on whether one or more sections are utilized: 23.2 - 25.8 – 28.5 cm (9.1" – 10.2" – 11.2").

- The LPH/009 includes a perforated shelf, 29.8 cm (11.7") wide and 27.7 cm (10.9") deep, that can be easily positioned on the top support tiers to accommodate smaller devices measuring less than 23.2 cm (9.1") wide.
